

AMENDMENTS TO THE DRAWINGS:

A replacement sheet is submitted for Figure 13 adding the holding device.

REMARKS

Initially, applicant notes with appreciation the indication that each of the claims is allowable.

The application has been amended to place the application in condition for allowance at the time of the next Official Action.

A replacement drawing is submitted for Figure 13 that includes the holding device as claimed in claim 50. The replacement drawing is believed sufficient to address the drawing objection noted in the Official Action. The above change is the only change and is believed not to introduce new matter.

The specification is amended to provide proper antecedent basis for the recited holding device. In addition, the specification is amended to provide proper antecedent basis for the recited "inserted information can be selected by changing the viewing angle of the vision aid to the viewed object" to address the specification objection noted in the Official Action. Since these limitations were originally presented in the claims, adding these features to the specification is believed not to introduce new matter. Accordingly, the specification objection noted in the Official Action is believed addressed and should be withdrawn.

Claims 1, 6-62, 64 and 65 are pending in the application.

Claims 8-11, 13, 15-34, 36, 39, 40, 42, 47, 48, 50, 51, 53-55, 60 and 61 are amended to address the claim objections noted in the Official Action.

The phrase "can be" is removed. In addition, the phrases "for example", "such as", or "the like" are also removed. In addition, each of the elements requiring antecedent basis are provided with proper antecedent basis. The claims are amended to refer back to a previous element or to introduce a new element to avoid confusion as to which element is being recited. Further, the suggestions noted in the Official Action are incorporated. The present changes to the claims are believed to address the claim objections noted in the Official Action and withdrawal of such objections is respectfully requested.

As each of the claims is indicated as being allowable and as the formal matters are believed addressed, the application is believed to be in condition for allowance. An early notification of allowance is respectfully requested.

The Examiner is respectfully urged to contact the undersigned attorney for clarification of any of the above addressed formal matters.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any

overpayment to Deposit Account No. 25-0120 for any additional
fees required under 37 C.F.R. \$1.16 or under 37 C.F.R.\$1.17.

Respectfully submitted,
